As well as showing the core activities undertaken, this report also highlights specific areas and zones where particular attention has been paid, also identifying any specific levy payer requests.

Executive Summary

This section summarises the key areas and tasks covered during the past month. Further detail on each work activity and location is included within this report.

The cleansing team continued working hard with their rounds around the City centre ensuring pavement areas, high contact locations, popular hot spots and levy payer premises were kept clean and inviting.

The team responded to a number of levy payer requests to support with additional cleansing and removal of waste. Our deep cleansing activities have been focused on Park Street, Queens Road and Park Row this month to help maintain the cleanliness for Christmas shoppers.

There was again a notable increase in the number of locations which had been targeted with unwanted graffiti and tagging which the team swiftly and effectively removed ensuring the locations were left in a clean and clear state.

Core Activity

Core activities are those which are carried out regularly across the eleven zones highlighted in the map below.

Summary of monthly Activity

The cleansing team responded to a number of levy payer requests to support additional cleansing of the exterior of buildings and premises. The team did an excellent job deep cleaning Park Street and Queens Road, making sure the area is kept thoroughly welcoming to those visiting the area for their Christmas shopping.
