Resource QR Code Slides

- Copy and paste the slide into your presentation or select, copy and paste the individual QR codes.

- To create a new QR code, copy and paste the desired URL into qrcode-monkey.com and click 'Create QR Code'. You can customise the colours or design, or just use what is automatically generated. Once a code is generated, click 'Download PNG' and save where desired.

- You may still want to include the URL on the slide as some work phones do not allow for QR code scanning.
